PM Coordinator – ACCESS DATABASES REVISIONS

8x

- Changed the Scheduler's Lookup Grid to show actual employee names in place of just unique id when the grid is customized and showing Work Assignments.
- Duplicated the above fix for the Work Requests Lookup grid also.

8.0.1.1 (15-JUN-16)

- Fixed another problem with saving to Equipment History log.
- Found that some of the support DLLs were out of date, and caused a few issues.
- Added "Last Build" information in the main About box. This was added to help with revision tracking when version numbers haven't been updated.
- Fixed a problem copying asset and labor information to newly created recurring work orders.
- Fixed the non-functioning 'Work Orders Labor' button on the options tab of the Scheduler module.
- Added a 'Generate New Now' button in the Scheduler's ribbon, 'Work Orders' tab. It will regenerate new work orders without having to restart.
- Fixed a date problem for task regeneration in Europe.

8.0.1.2 (01-AUG-16)

- Added a "Database Backup" utility that copies your databases to the path/folder of your choice. "Admin" menu, "Databases" sub-menu, "Database Backup" option.
- Fixed some issues with the lookup screens when used in Europe.
